

The Neighborhood Emergency Notebook

The 3 Steps booklet is designed to help neighborhood leaders implement the 3 Steps plan. It's not what every family in the neighborhood needs. But we have taken the applicable pages from it that everyone does need and added to those many other pages of important emergency information and created what we call ***The Neighborhood Emergency Notebook***. Each family in the neighborhood receives one of these, and we update the information in it periodically.

You can click on each of these 2 links to download pdf's of the 2 halves of ***The Neighborhood Emergency Notebook***. (The host for this website can't upload the whole thing in one fell swoop, so we had to upload it in 2 parts.) If the links just bring up the pdf's but don't download them to your computer, you can save the pdf's to your computer and that should do it.
